TB-500

The Repair Mobilizer

The active repair fragment of Thymosin Beta-4, a protein your body uses to heal. TB-500 helps repair cells move to where they are needed and supports new blood flow to injured tissue.

AVAILABLE AS

- Injection (stand-alone): ask your coach about current availability
- BPC-157 / TB-500 — 3 mg/3 mg per mL (5 mL)
- Wolverine: BPC-157 / TB-500 — 1.66/3.33 mg per mL (3 mL)
- Also in: BPC-157 / KPV / TB-500, the 4-in-1 blend and Glow

MAY HELP WITH

- ✓ Muscle, tendon and ligament recovery
- ✓ Healthier healing with less scar tissue
- ✓ Faster bounce-back after strain or injury
- ✓ Flexibility and function after injury

POSSIBLE SIDE EFFECTS

- –Mild redness or irritation at injection site
- –Temporary fatigue
- –Flushing or itching (histamine-sensitive users)

NOT FOR YOU IF

- –Active or suspected cancer
- –Mast cell disorder or histamine intolerance
- –Pregnant or breastfeeding
- –Children or adolescents

Coach tip: TB-500 is usually used during an injury-recovery phase, not year-round. Pairing it with BPC-157 covers more of the healing process.

INCLUDED IN EVERY RENU LONGEVITY PROGRAM

Provider	Coaching	Evolt 360	Nutrition
telehealth review	regular check-ins	body scans	& training plan
