RenU RENEW • REVIVE • THRIVE

Tesamorelin

The Belly-Fat Specialist

A growth-hormone-releasing peptide that prompts your own pituitary to make more growth hormone. Best known for reducing stubborn visceral (belly) fat.

AVAILABLE AS

- Injection: 3 mg/mL (5 mL vial, 15 mg)
- Also in: Tesamorelin / Ipamorelin and MOTS-c / Tesamorelin blends

MAY HELP WITH

- ✓ Visceral belly fat
- ✓ Body composition and lean muscle
- ✓ Cholesterol and lipid balance
- ✓ Memory and focus (early research)

POSSIBLE SIDE EFFECTS

- –Injection site redness or swelling
- –Water retention or joint aches
- –Mild stomach upset
- –Tingling or numbness in hands

NOT FOR YOU IF

- –Active or suspected cancer
- –Pituitary disorder
- –Pregnant or breastfeeding
- –Poorly controlled diabetes or high IGF-1

Coach tip: Results build over months, not days. Pair it with strength training and protein to keep the lean muscle you gain.

INCLUDED IN EVERY RENU LONGEVITY PROGRAM
