

Testosterone Cypionate

Restore Your Edge

Replaces testosterone when labs confirm your levels are low. Your provider sets the dose and monitors your blood work.

AVAILABLE AS

- Injectable, 3-month supply
- Lab work required before starting and during treatment

MAY HELP WITH

- ✓ Energy and drive
- ✓ Muscle, strength and recovery
- ✓ Libido and sexual function
- ✓ Mood and mental focus

POSSIBLE SIDE EFFECTS

- Acne or oily skin
- Fluid retention
- Higher red blood cell count (monitored by labs)
- Lower sperm count and fertility

NOT FOR YOU IF

- Prostate or breast cancer
- Trying to conceive now or soon
- High red blood cell count or untreated severe sleep apnea
- Uncontrolled heart failure
